Appl. No. 10/040,270
IDS dated July 30, 2007
Reply to Notice of Allowance dated May 8, 2007

A PTO form 1449 listing these documents is enclosed. Document JP 2004173285 was originally cited by the USPTO in a related U.S. patent application. The USPTO did not provide Applicants with a translation for JP 2004173285 and Applicants do not have a translation of the document. To determine the relevance, the enclosed copy of the Patent Abstracts of Japan was obtained. This document provides the relevance as known by Applicants.

Applicants note that the original Japanese document JP 2004173285 appears to claim priority on U.S. Patent Application Serial No. 10/459,863. The U.S. Patent Application Publication No. 2004/0098609 that corresponds to this serial number is also cited on the PTO form 1449. A comparison of the Patent Abstracts of Japan and the abstract of the U.S. Patent Application Publication No. 2004/0098609 shows that they include the same information.

Citation of the above documents shall not be construed as:

1. an admission that the documents are necessarily prior art with respect to the instant invention;
2. a representation that a search has been made, other than as described above; or
3. an admission that the information cited herein is, or is considered to be, material to patentability as defined in § 1.56(b).

The Commissioner is hereby authorized to charge any fees required for consideration of this Information Disclosure Statement, and to credit any overpayment of fees to Deposit Account No. 50-0553.

CERTIFICATE OF MAILING

I hereby certify that this correspondence is being deposited with the United States Postal Service with sufficient postage as first class mail in an envelope addressed to: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450, on July 30, 2007.
